0 Bizarre and Odd Corona Reports - What is this text about?

In the following, bizarre and sometimes even bizarre reports concerning Corona are collected. The reason is not only to collect strange things, but to illuminate the backgrounds. For example, it seems that the harsher measures - such as the "Green Pass" in Italy¹ or the renewed tightening of Corona measures from 11/2021 in Greece² are decided - the more these evoke an all the more grotesque avoidance behavior, especially against vaccinations. In Germany a high measure of falsified vaccination cards where to determine (In November 2021 there were in Germany presumably already over 3,000 investigation procedures³).

1 Wrong medicine / causes of the pandemic

- **Ivermectin:** A deworming agent (not only approved for horses, but also for humans), which is traded in "vaccine-skeptical circles as a remedy against Corona. "The mother of two, Tamara Drock from the US state of Florida, also believed in the effect of ivermectin. **Her husband even sued Palm Beach Gardens Medical Center because the hospital would not give the 47-year-old the dewormer.** ... Ryan Drock lost the case, but the judge asked that the hospital

and husband settle out of court. The teacher was eventually given a dose of ivermectin, but died a short time later. ... Her family now wants to file a lawsuit. "We don't know if ivermectin would have saved her life, but it could have," the lawyer said. "⁴

But it's not just the U.S. that's affected: "Austrian family takes worm medicine for Corona - father and father-in-law dead! ... In Austria, a family of four has been hospitalized with Corona. A few days later, two of them were dead. **The cause of death was quickly found for the surviving relatives: The patients stated that they had just taken too little horse dewormer, therefore it had not helped against Covid-19.**"⁵

- **"Miracle Mineral Solution" (MMS):** A panacea for all kinds of diseases - including the coronavirus. At least that's what former Scientology follower Jim Humble preaches. Specifically, the agent is the bleaching and disinfecting agent chlorine dioxide, or CDL for short. **Donald Trump also suggested chlorine bleach as a cure for Covid-19.** CDL is currently particularly trendy among vaccine refusers.
- **Do chlorine dioxide and onions help** against the coronavirus? Such and similar myths are currently circulating en masse through social networks - and unsettling many people. In addition to the effectiveness of onions against Corona, the question arises how such a report can make it into the daily news (online)?⁵ Possibly a case of "hidden unemployment" in the public media. However, even Austrian authorities warn against MMS, CDS & CDL.⁶
- On 11.05.2022, the daily newspaper DIE WELT reports **a sharp increase in calls about chlorine dioxide to the Poison Control Center.**⁷ The Poison Information Center North (responsible for Lower Saxony, Hamburg, Bremen and Schleswig-Holstein) recorded seven emergency calls due to chlorine dioxide in 2019. In the first pandemic year 2020, there were 50, and by mid-May 2021, there were already 24.
- **Green tea helps against vaccination.** "One has already heard many weird theories about Corona, but this one reaches a particularly high value on the Attila Hildmann scale, which is open to the top... In short: drink three liters of green tea directly after the vaccination and avoid whole grain products - then the mRNA vaccine is flushed out of the body in no time at all! ... In the scurrile Posting, which is haunted at present by all social networks, one refers to the Moscow Virologist Alexey Agranovsky. He is said to have found out about the green tea. ... "This is complete garbage," says Agranovsky, a professor at Moscow's Lomonosov University who does serious research on Corona. "I have never done any such 'studies,' and my name is being used without consent."⁸
- **Fake soy - - Gene soy as pandemic trigger:** *I got a letter from a Chinese scientist when the SARS epidemic broke, do you remember, and he said, 'We are feeding all our animals GMO soya and it could so easily be that this horizontal gene transfer is happening and the animals*

are developing super-viruses which are then jumping from animals to humans.' - Vandana Shiva, 2019" 910

- **"Zero-Covid" in China:** Although the Chinese city of Yuzhou is in lockdown, an increase in the number of infections has been reported. The total number of cases in the city of 1.7 million inhabitants is now 55. While citizens are not allowed to leave their homes, several trucks disinfected the empty streets during the night.¹¹

2 "Fake news" about vaccinations

- **False information (fake news) about the medical consequences of vaccination.** "Rumors that vaccination against Covid-19 makes people infertile persist."¹²
"Do immigrants have greater reservations about vaccinations? No, says Mosjkan Ehrari, head of the information platform "Handbook Germany." But she sees gaps in the authorities' information campaign. ... There is, of course, a lot of ignorance and misinformation, such as that vaccines could make women infertile."¹³
A CARE study on COVID vaccinations in Iraq, based on statistically more reliable data than the "felt" statistics of Ms. Ehrari, comes to the following results (key findings):¹⁴
 - Vaccine hesitancy is high. 68% of people (67% men and 68% women) say they are NOT willing to receive a COVID-19 vaccine.
 - Women have less access to, knowledge of, and willingness to accept the COVID-19 vaccine than men.
 - Fear of side effects is the biggest obstacle. ... biggest concern is fear of side effects including fever, death, and severe allergic reactions. Another side effect people commonly cite as a reason **they will not get vaccinated is the vaccines will make them infertile.**
- On 13.12.2021 an article with the title: **"Die irrationale Angst der migrantischen Milieus"**¹⁵ appeared in the WELT. There it says "Migrants are apparently less frequently vaccinated than others in the country". **The reason for this seems to be the message "vaccination makes (women) infertile", which is mainly spread in social media and communities. However, the statistical basis of this statement is relatively thin.** E.g., essentially "conversations" with migrants are cited; furthermore, without statistical evidence, it is stated that the vaccination campaign - even with low-threshold offers - is only "making slow progress" especially in the

Berlin district of Neukölln¹⁶ with 44% of the population with a migration background¹⁷. The RKI (Robert Koch Institute) has examined in a sample survey between September and October 2021, how much the vaccination rates between the German and migrant population is. Among those surveyed, the conclusion was that the proportion of migrants who were vaccinated was about 5 percentage points lower. However, over 91% of the respondents said they were vaccinated. In fact, at that time, the maximum was 70%. Consequently, a very large proportion of the non-vaccinated population did **not** participate in the survey. In order to determine the actual difference between the German and migrant populations, at least approximately, one would have to know the response rate among migrants and Germans in order to then be able to (ab)estimate the actual difference.

Furthermore, the WELT article cites a survey by the Federal Center for Health Education: According to this study, 19% of those born in Germany were unvaccinated and 27% of foreigners at the time of September and October 2021. The extent to which the difference becomes even greater when the migration background is included is a matter for debate at this point. There is also the prospect of a (statistical) study by the RKI in 2020. "Let's see" whether this will ever be published and in what form.

- **Wrong or right?** "Robert F. Kennedy Jr. fights everyone in his new book: Bill Gates, Anthony Fauci, the media, the pharmaceutical industry. The work has climbed to the top of Amazon's bestseller lists. ... In 480 pages, Kennedy, a prominent vaccination opponent, describes how Anthony Fauci, the head of the National Institute of Allergy and Infectious Diseases, is said to be in cahoots with Bill Gates and the pharmaceutical companies. They would run a "powerful vaccination cartel" that would prolong the pandemic and exaggerate its deadly effects to promote expensive vaccines. They would be supported in this - as befits a conspiracy theory - by the so-called mainstream media and "big tech" companies, which allegedly censored critical reports. "

3 False Vaccinations / Vaccination Cards / Corona Tests / Mask Attests & False Arm

- **False vaccinations: Greece - Deceived Fraudsters:** "According to Greek media, more than 100,000 vaccination opponents as well as 200 to 300 doctors and nurses are believed to have been involved in the massive fraud - in exchange for a bribe of around 400 euros. Dozens of vaccination centers throughout the country are affected. Apparently, not only were vaccination certificates issued illegally, but downright false vaccinations were carried out. **However, some physicians are said to have injected a real vaccination dose instead of the saline solution - in other words, to have cheated the fraudsters, so to speak. The full extent is not yet foreseeable.**"¹⁸
Background: "Already in September the government had introduced a vaccination obligation for employees in the health service, which met with large resistance ... The

penetration of the vaccination obligation led accordingly to the suspension of approximately 6000 employees ... Also in September the conservative government of Prime Minister Kyriakos Mitsotakis intensified besides the restrictions for unvaccinated: Without vaccination proof hardly still offers can be taken up from catering trade to leisure facilities. ... The police were put on the trail of the fraud by the case of the town of Palamas: In the vaccination center of the town of 6000 inhabitants, more than 40,000 vaccinations are said to have been carried out."¹⁸

- **Baden-Württemberg:** Hundreds of ineffective Corona vaccinations injected? ... There is a suspicion that the doctor **added something homeopathic to the vaccine** before the **vaccination**. When the patient said that she was a bit afraid of the side effects of this vaccination, the doctor said that she need not worry, she had added something homeopathic.¹⁹
- **False vaccinations - Slovenia: "A man in Slovenia had himself vaccinated 23 times against Corona.** The Slovenian man allegedly got paid to get vaccinated on behalf of others. According to the news portal "Svet24", ... another man is said to have been vaccinated against Corona six times. ...
On October 1, 2021, Slovenia had introduced the Corona vaccination requirement for public sector employees. Since then, the approximately 31,000 employees must either recover from the Corona virus or be vaccinated. "²⁰
- **New Zealand:** "In New Zealand, a man had himself vaccinated **ten times** against the coronavirus - in just one day. Apparently, he sold the vaccination certificates afterwards. "²¹ According to doctors, however, a tenfold vaccination does not protect better; for this, the arm may have caused plenty of pain. Accordingly, one can only hope that the fee was quite high.
- **False vaccination cards: Germany - more and more fake vaccination cards in circulation - the piece for up to several hundred euros ...** 106 ongoing investigations because of false vaccination cards reports the Brandenburg police, 393 the Berlin. The vaccination certificate is a document, to forge it is punishable by law. ²² ○ "Although the case was already exposed in October, ... still managed to upload a digital certificate of the pharmacy to the CovPass app until the beginning of last week. Only after notifying the authorities was the certificate blacklisted in the CovPassCheck app and is now no longer valid. ... that there were hardly any entries in the blacklists of the Corona Warn app and the CovPass app. ... - **"Ludwigshafen pharmacist: 70 percent of vaccination cards are falsified.** ... It annoys him what he has been experiencing every day for several weeks in his Ludwigshafen pharmacy. "In the meantime, about 70 percent of the vaccination cards that are presented to us are falsified. We also had days when we couldn't issue a single certificate because they were all fake." The Ludwigshafen police confirm that the number of operations has increased in a short time. This is still a fairly new phenomenon for them as well. As a rule, however, they are only called in after the fact, when the pharmacists discover the counterfeit and the suspect has already left the store. Then the investigation begins. ..."²⁴ For sure, the commissioners "Chance and Rex" have already solved almost all cases of the fake vaccination cards in Ludwigshafen.
- **"According to a decision of the Osnabrück Regional Court, the presentation of a falsified vaccination certificate in a pharmacy is not punishable** [According to the court, the namely only punish the presentation of a falsified health certificate to authorities or insurance companies, but pharmacies are private companies]. . **Criminal lawyers say: The legislator should have worked more cleanly.** ... [particularly incomprehensible: why the politicians, when adapting the Infection Protection Act in the spring of this year ... only made the incorrect issuing of vaccination certificates by an "authorized person" a punishable offense, but not the falsification by a private person]. Thousands of investigations are said to be underway in this connection throughout Germany. The Bavarian State Office of Criminal Investigation reports that there are currently "more than 600 cases". The State Criminal Police Office in Berlin has received 153 criminal complaints so far. In Hamburg the police investigated last in 113 procedures."²⁵
"In order to establish legal certainty, the Bundestag decided on November 18, 2021, the amendments of several paragraphs of the Criminal Code. Since then, it has been clear: vaccination card forgers and users of forged vaccination cards face harsh penalties. "²⁶ *Time for a good lawyer... [km]*

"It was striking that many certificates came from twelve Freiburg practices. One practice used the same wording 17 times in the certificates. Some also came from private clinics in Bavaria or Berlin. According to the regional council, however, justifications must be individually tailored. Meanwhile, the public prosecutor's office in Freiburg has requested documents from the regional council to initiate an investigation. "²⁸

- **No mask, no job:** "A teacher no longer appears at her school - and instead at lateral demos. Christine S. was at the high school in Landsberg for 13 years. Then came Corona and she didn't want to wear a mask in class. "²⁹ The Süddeutsche Zeitung (SD) is here completely in line with the Neues Deutschland (ND): "Extreme right infiltrates Corona deniers".³⁰
- **False arm: Italian shows up for vaccination with silicone arm.**
"In Italy, there are fewer and fewer social spheres in which one can still participate without a vaccination certificate, the Green Pass. "³¹ "But a nurse did not fall for the deception attempt, as she told the newspaper "Corriere della Sierra". "When I uncovered the arm, I felt skin that was cold and sticky, and the color was too light" ... At first, she said, she thought the 57-year-old man was an amputee and had accidentally offered the wrong arm. "³²
- **Alleged nurse invents anti-vaccination attack.**
It sounds outrageous: Two nurses find their cars with slashed tires and a hate letter from anti-vaccination activists after a night shift. It goes viral - and it's not true.³³

4 False interpretation: Wrath of God, APOCALYPTIC TESTING AND SPIRITUALLY BASED RESILIENCE

"For religious perspectives of interpretation it can therefore be obvious to look for the cause of such catastrophes in the direct action of a deity: it as a godly "punishment", as an effect of the "wrath of God" ... can meditation, prayer and ritual help to meet the threatening danger of contagion - or is even a spiritual disinfection propagated. ... **Nevertheless, the worldwide meditation day proclaimed for April 4 in esoteric forums with its "meditation for the final eradication of the Corona virus" seems not to have been successful yet - just as little as the magic number 537354.**³⁴ [own emphasis].

5 False data over Christmas: Is Germany a "Failed State" in terms of Corona data collection?

On 26.12.2021, Die Welt reported: "For the second year in a row, Germany is in the Corona data fog at Christmas. Health authorities, RKI, federal government and states have apparently not learned any lessons from last year. " ... "When looking at the Corona figures, one is briefly overcome by a feeling of relief: on Sunday, the nationwide seven-day incidence was 220.7. The health offices reported 10,100 new infections. Both values were last lower at the beginning of November. But appearances are deceptive. The figures are no cause for celebration, they are simply: worthless. Germany is in holiday mode. And so are the pandemic statistics. "³⁵

On Dec. 29, 2021, Karl Lauterbach, the current health minister and a frequent guest on talk shows, also noted the problem: "In recent days, I have been concerned with the underreporting of corona cases, which is due to the fact that less testing is currently being done - in the workplace, but also in the practices. ... The actual incidence is about two to three times higher, the SPD politician said in Berlin. "In addition, we see a significant increase in omicron cases, which worries us. "³⁶

Also on Dec. 29, 2021, Deutschlandfunk reports, "Several European countries have reported new highs in the number of corona cases. Experts attribute the significant increase to the spread of the omicron variant. Italy, France, and the United Kingdom, among others, recorded jumps. "³⁷ #

Does Germany (the RKI) play in the 3rd league? Either the statistical tracking of Corona infections is significantly worse in Germany compared to other countries, or the new infections in the other countries such as Italy, France and Great Britain must be higher by at least a factor of 3 (as Karl Lauterbach assumes for Germany). Otherwise, the figures for Germany and the other countries such as Italy, France and Great Britain cannot be explained.

So the following questions arise:

- Do other countries, such as Italy, France and the United Kingdom, have better coverage of Corona infections during the Christmas holidays than Germany?
- If not, should omicron infections in these countries be much higher (in Germany they would be relatively low)?
- The health care systems in these countries must therefore not only be "at the limit", but actually already collapsed?

6 False food: Fondue and raclette: RKI warns against these New Year's Eve dishes

Although the RKI cannot provide any real data about the holidays (Christmas and New Year's Eve), it can provide all the more good tips:

"Before New Year's Eve, experts point out the unappetizing dangers of popular festive dishes. Scientists from the Robert Koch Institute (RKI) write in the scientific journal "Scientific Reports" that there is a connection between an infectious diarrheal disease and meat fondue

and raclette. The Federal Office of Consumer Protection and Food Safety (BVL) sees a danger from lead in game meat for certain groups of people. "³⁸

You have been vaccinated three times against Corona and then this ... Even in the closest family circle with less than 5 people, you are not safe if the lunch was shot with lead ammunition!

7 Wrong driving behavior: More speeders and tailgaters on Rhine-Hessian highways because of Corona?

Pushing, speeding, racing - police stations in Rhine-Hesse are currently seeing an increase in reports of coercion in road traffic. The Corona pandemic could be to blame. No joke, the article actually appeared like this on SWR.³⁹

8 Bad dreams - because of Corona!

Allegedly first studies show that "we" dream "more, more vividly and more bizarrely than before" because of Corona.⁴⁰ But not only public "New-Age"⁴¹ media like the NDR or the Deutschlandfunk, so the FAZ knows to report about a study, according to which "recently "heaps" of beetles appear in dreams".⁴² DIE ZEIT goes esoterically one step further. Psychologists interpret there the dreams of readers. This goes e.g. in such a way "I am caught in a pancake and must eat myself through. But I always get caught in the jam" (whether it was really a dream). Often it is also about masks: "THE ANALYSIS: "Many pandemic dreams reflect fears. But this dream is also about the reader trying to be on time despite the problem with the mask. You can interpret this as a metaphor for a fundamental dilemma, which is the back and forth between what someone wants to do and what is possible"". ⁴³

9 Right (& Bright) Health Minister: Karl Lauterbach⁴⁴

The salt-free⁴⁵ Social democrat Professor Dr. Karl Lauterbach is since 8.12.2021 Federal Minister for health. **And rightly so. In the year 2021 Lauterbach was 29 times guest in Talkshows** (at least every 14 days); **And that with clear distance to all other Celebrities.** For comparison other German Politicians: Christian

Lindner 14 times, Robert Habeck 11 times, Markus Söder 10 times and Mrs. Baerbock only 7 times.⁴⁶ (Did Karl Lauterbach win the election for the SPD through his media presence?)
